

TECHNICAL DATA SHEET

Recent scientific research indicates that pure silver is essential to life. The human body contains .001 microns of silver and researchers note that illness occurs more frequently when the level of silver drops below this point. Silver, is also effective in fighting more than 650 bacteria, fungi, viruses and parasites.

Unlike antibiotics, Colloidal Silver can be taken indefinitely without fear of micro-organisms developing a tolerance to it. Micro-organisms depend on specific enzymes to breathe.

Miniscule colloidal silver ions disable these enzymes, cutting the air supply to the micro-organisms with cytopathogenic results. Since the micro-organisms are suffocated rather than poisoned, resistant strains fail to develop.

99.99% pure .001 microns of silver are suspended at ten parts-per-million in demineralized water using an elctro-colloidal process (potency certified by an FDA registered lab).

SUGGESTED USE:

- Adults—4 dropperfuls once daily, or more, as needed.
- Children—1 or 2 dropperfuls once daily.
- May be taken with distilled water or pure juice at least two hours before or after a meal.
- May be applied topically.

PRODUCT SPECIFICATIONS

| | |
|----------------|-------------------|
| PRODUCT NUMBER | LF600 |
| DESCRIPTION | 30-day supply |
| QUANTITY | 4 fl oz/118.28 ml |

For use in the U.S. Market only

COLLOIDAL SILVER
