

## TECHNICAL DATA SHEET

### INGREDIENTS:

Millions of exhausted people drag themselves out of bed each morning to face another day. Their needs are simple: they just want to feel better, look younger, have more energy and live longer.

Sunbright contains phytonutrients used to boost energy and help people feel their absolute best. It is also rich in the amino acid complex used by the body to stimulate the release of growth hormone, a substance for optimal cellular regeneration and rejuvenation.

**YERBA MATE**—is prized as a refreshing and reviving stimulant by natives of South America. It stimulates cerebral activity and the central nervous system.

**GINGER ROOT**—is used in Oriental medicine to strengthen and stimulate vital energies while invigorating the whole body.

**GOTU KOLA**—is a tonic herb of Asian origin that promotes alertness and has anti-fatigue properties.

**GREEN TEA EXTRACT**—is prized for its stimulating properties throughout the world.

**WILD YAM**—has anti-spasmodic properties and is believed to improve liver function and lower blood pressure.

**REISHI MUSHROOM**—is currently being studied in China as a sports performance enhancer because of adaptogenic properties that are four to six times more potent than Ginseng. It also nourishes and supports the immune system by preserving oxygen in the body.

**GINKGO BILOBA**—is one of the best researched and most widely used brain-related dietary supplements. It has experimentally demonstrated neuroprotective properties shown to improve memory, alertness and attention.

**ASTRAGALUS**—stimulates the immune system and is also considered an energy booster.

**CODONOPSIS**—increases energy and combats stress. Shown to be most powerful when used in combination with amino acids.

### PRODUCT SPECIFICATIONS

PRODUCT NUMBER	LF300
DESCRIPTION	30-day supply
QUANTITY	2 fl oz/57 g

*For use in the U.S. Market only*

## TECHNICAL DATA SHEET

---

**LYSINE**—is an amino acid and a necessary building block for all protein in the body. It plays a major role in calcium absorption, building muscle protein and recovering from sports injuries. It also plays a role in the body's production of hormones, enzymes and antibodies.

**ARGININE**—is an essential amino acid involved primarily in metabolism and DNA synthesis. It plays a vital role as a Human Growth Hormone (HGH) releaser and in immune system support.

**ORNITHINE**—promotes the body's release of HGH, which promotes cellular regeneration and the metabolism of excess body fat. The effects of Ornithine are enhanced when combined with Lysine, Arginine, Glutamine and GABA (see below).

**GLUTAMINE**—is the major source of energy for the brain and the entire body. It helps build and maintain muscles and performs a major role in DNA synthesis. It is also a natural antacid and improves memory and mental activity.

**GAMMA-AMINOBUTYRIC ACID (GABA)**—is an amino acid that functions as a neurotransmitter in the central nervous system. Research demonstrates that GABA reduces stress and anxiety.

**NONI EXTRACT**—contains a natural alkaloid, xeronine, that appears to have a wide range of beneficial effects on the circulatory and central nervous systems.

**CINNAMON**—is a popular flavoring agent that also has anti-inflammatory properties.

### **SUGGESTED USE:**

2 to 4 droppers as needed.

- Keep out of reach of children.
- Pregnant or lactating women should consult a physician prior to using this product.
- Sealed for your protection.
- Do not use if shrink band is broken or missing.
- Satisfaction guaranteed.

**SUNBRIGHT, continued**
