

## TECHNICAL DATA SHEET

Taheebo is an ingredient also known as Pau d'Arco, Ipe Roxo, Lapacho, Ipes and Trumpet Bush. Extracted from the inner heartwood of the Lapacho tree found only in the ozone-pure high Andes of South America, Taheebo is a powerful herb.

Analysis of the bark indicates that a derivative known as lapachol has antibiotic, antifungal, immuno-stimulant, anti-inflammatory and anti-bacterial properties.

The entire extract also regulates sugar levels, promotes digestion and appears to strengthen cellular structure while eliminating pain. Clinical studies show that Taheebo has no contraindications, no incompatibilities and has proven to be non-toxic.

### SUGGESTED USE:

- One dropperful in eight ounces of hot or cold water both morning and evening.
- May be taken undiluted under the tongue.
- Topically, it may be applied liberally.
- Keep out of reach of children.

### INGREDIENTS:

- Extract from the Lapacho Tree heartwood
- Tincture 20% Alcohol

### PRODUCT SPECIFICATIONS

PRODUCT NUMBER	LF120
DESCRIPTION	30-day supply
QUANTITY	2 fl oz/60 ml

*For use in the U.S. Market only*
